

A progressive, service-oriented Ag retailer with 11 locations with professional staff providing products, service, equipment and expertise in sales and agronomy. Our knowledgeable agronomic advice is to assist our grower partners in producing the most profitable and high yielding crops possible.

If you are looking for a new and challenging career and are a self-starter that loves the agricultural field and has a mechanical background, we are looking for you.

Our **Virден** location is currently looking for a full time, **Site Operations Supervisor**.

As the **Site Operations Supervisor**, you will be responsible for:

- Operating a range of plant and mobile equipment.
- Performing maintenance and repair on a variety of equipment.
- Performing general plant operation maintenance.
- Working flexible hours with capacity to work extended hours if required.
- Delivering Farm supply products

Skills:

- Red Seal Mechanic would be an asset but not required,
- Have mechanical and general maintenance experience & a willingness to learn.
- Possess a valid Class 1 or 3 driver's license an asset.
- Must possess great organizational skills
- Able to handle the physical demands of the position and work in a variety of environments.
- Self-starter, ability to work alone while being a valuable member of a team.
- Agriculture background is an asset but not a requirement.

Redfern Farm Services offers a competitive salary and comprehensive benefits package.
